Subject: Consolidation of Cable TV and Cultural Arts

Honorable Mayor,

Consolidation of the Arts and cable commissions makes sense in light of the work load of each commission; however, I suggest that expanding the role of the cable commission would create new air for volunteers to serve and create new interest in the heart of the city.

I suggest that the cable commission have a role in the improvement of the web presence of the city. I suspect that the internet service is out sourced, which is fine, but I don't see a lot of innovation in how the city presents itself on the web. Young people may want to serve on the cable commission if it included internet innovation.

Please accept my humble suggestion.

Respectfully,
Mike Sebastian
