

Council Meeting of
June 26, 2012

Honorable Mayor and Members
of the City Council
City Hall
Torrance, California

Members of the City Council:

**SUBJECT: Transit – Approve Torrance Transit Claim for
Transportation Development Act (TDA) and State Transit Assistance
(STA) funds for fiscal year 2012-2013.**

EXPENDITURE: Not applicable

RECOMMENDATION

Recommendation of the Transit Director that City Council approve the submittal of the annual claim to the Los Angeles County Metropolitan Transportation Authority (LACMTA) for \$4,932,221 in Transportation Development Act funds (TDA) and \$1,148,147 in State Transit Assistance funds (STA) for the Torrance Transit System fiscal year 2012-2013.

FUNDING

Not applicable.

BACKGROUND

Annually, the Torrance Transit System is allocated transit subsidy funding as provided by state statute on a formula basis based on external grant monies that finance the operating and capital needs of our bus system. These funds are shared by formula with all of the other included and eligible systems in Los Angeles County. The specific types of funding sources that are allocated each year in this manner by LACMTA are 1) Transportation Development Act (TDA); 2) State Transit Assistance (STA); 3) Proposition A Discretionary funds; 4) Measure R; and 5) Federal Transit Assistance (FTA) Section 5307 capital allocations.

The formula used for distributing the four primary funding sources of TDA, STA, Measure R and Proposition A Discretionary is based on 50% of the recipient's annual systemwide bus service miles (excluding weekend miles). The remaining 50% is derived from a factor called "fare units". Fare units are calculated by dividing the bus system's total annual farebox revenue by the system's base fare. For Torrance Transit, the current percentage generated by this 50/50 formula

designating Torrance's share of the countywide funding "pots" is 1.6983% for TDA, STA, Measure R and Proposition A Discretionary.

ANALYSIS

LACMTA and the Southern California Association of Governments (SCAG) prescribe the particular forms contained in the Claim, as well as its overall format. Recipients, nonetheless, determine the purpose for which the monies are used. Staff has programmed a total of \$4,932,221 in TDA funds and \$1,148,147 in STA funds to off-set the operating costs of its transit system.

As part of the claim, Transit is required to identify and set aside funds as a local match to federal grant funds for capital expenses. Historically, STA or Municipal Operators Service Improvement Program (MOSIP)/ Proposition C Discretionary 40% funds have been used for the local match. For FY 13 the California Department of Transportation (Caltrans) has been approved by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) for the use of "toll-credits" as the local matching requirement. The amount of credit a state can earn is determined by the amount of toll revenue used for capital expenditures to build or improve public highway facilities. Caltrans has received an approval from the FHWA for \$5.7 billion in toll credits. Torrance Transit intends to use \$625,000 of the toll credits for the listed projects below.

A total of five (5) projects comprise the FY 13 capital program:

- 1) \$450,000 (toll credit) as local match for Capital Preventive Maintenance expenses. Total cost of the project is \$2,250,000.
- 2) \$150,000 (toll credit) as local match for the above ground Lubricant Storage Tank Installation Project. Total cost of the project is \$600,000.
- 3) \$25,000 (toll credit) as local match for the purchase of shop equipment to maintain the alternate fuel CNG buses. The total cost of the project is \$100,000,
- 4) \$250,000 (Measure R Capital) as local match for the Transit Enhancement (TE) Program. The project will include new bus stop signage, bus benches, trash receptacles and shelter replacements. Total cost of the project \$1,250,000.
- 5) \$1,044,192 (MOSIP) of 24% local match- 76% FTA Section 5307 \$3,306,608 funding for the purchase of eight (8) Compressed Natural Gas buses. Total cost of project \$4,350,800.

The total federal share of the five projects is \$7,256,608 and the local matching requirement is \$1,294,192 for total project expenditure of \$8,550,800.

Respectfully submitted,

Kim Turner
Transit Director
