

Council Meeting
July 24, 2007

Honorable Mayor and Members
Of the City Council
City Hall
Torrance, California

Members of the City Council:

SUBJECT: Torrance Transit's FY 2007-08 Claim for Transportation Development Act (TDA) and State Transit Assistance (STA) Funds

EXPENDITURE: Not applicable

RECOMMENDATION

The Transit Director recommends that the Council approve the submittal of the annual claim to the Los Angeles County Metropolitan Transportation Authority (METRO) for \$5,361,139 in Transportation Development Act (TDA) funding and \$711,081 in State Transit Assistance (STA) funding for the Torrance Transit System for fiscal year 2007-08.

FUNDING

Not applicable.

BACKGROUND

Annually, the Torrance Transit System is allocated transit subsidy funding as provided by state statute on a formula basis based on external grant monies that finance the operating and capital needs of our bus system. These funds are shared by formula with all of the other included and eligible systems in Los Angeles County. The specific types of funding sources that are allocated each year in this manner by METRO are 1) TDA; 2) STA; 3) Proposition A Discretionary funds, and 4) Federal Transit Assistance (FTA) Section 5307 capital allocations.

The formula used for distributing the three primary funding sources of TDA, STA and Proposition A Discretionary is based on 50% of the recipient's annual systemwide bus service miles (excluding weekend miles). The remaining 50% is derived from a factor called "fare units". Fare units are calculated by dividing the bus system's total annual farebox revenue by the system's base fare. For Torrance Transit, the current percentage generated by this 50/50 formula

designating Torrance's share of the countywide funding "pots" is 1.55645% for both TDA/STA and Proposition A Discretionary.

ANALYSIS

METRO and the Southern California Association of Governments (SCAG) prescribe the particular forms contained in the Claim, as well as its overall format. Recipients, nonetheless, determine the purpose for which the monies are used. Staff has programmed a total of \$5,361,139 in TDA funds and \$711,081 in STA funds to offset the operating costs of its transit system. The Transit Department was able to program STA funds for operating expenses this fiscal year because it met the STA efficiency standards for 2006-07.

As part of the claim, Transit is required to identify and set aside funds as a local match to federal grant funds for capital expenses. Historically, STA funds have been used for the 20% local match. However, since STA funds will be available for operating expenses, Transit is opting to use the more restrictive Municipal Operators Service Improvement Program (MOSIP)/ Proposition C Discretionary 40% monies for the capital match.

Staff has programmed a total match of \$755,000 in MOSIP monies for funding for the following seven (7) FY 2007-08 capital projects:

- 1) \$428,000 as local match for Capital Preventive Maintenance expenses;
- 2) \$185,000 as local match for the replacement of three (3) hybrid gasoline-electric buses.
- 3) \$40,000 as local match for engines and transmissions;
- 4) \$30,000 as local match for the replacement of tires;
- 5) \$30,000 as local match for bus washer;
- 6) \$30,000 as a local match for heavy duty bus cleaner;
- 7) \$12,000 as local match for transit enhancements;

Respectfully submitted,

Kim Turner
Transit Director

Concur:

LeRoy J. Jackson
City Manager
