

Council Meeting of
June 17, 2008

Honorable Mayor and Members
of the City Council
City Hall
Torrance, California

Members of the Council:

SUBJECT: Public Works – Approve Agreement between the City of Torrance and the City of Redondo Beach for Santa Monica Bay Beaches Bacteria TMDL Shoreline Water Quality Monitoring, Expenditure: \$41,624.00

RECOMMENDATION

Recommendation of the Public Works Director that the City Council approve an Agreement between the City of Torrance and the City of Redondo Beach to pay Redondo Beach for the Santa Monica Bay Beaches Bacteria Total Maximum Daily Load, Shoreline Water Quality Monitoring program an annual amount of \$10,406 for a maximum of four years from November 1, 2008 to October 31, 2011.

Funding

Funding is available from the Public Works Operating Budget.

BACKGROUND/ANALYSIS

On January 24, 2002 the California Regional Water Quality Control Board, Los Angeles Region (Regional Board) adopted Resolution No. 02-004 establishing Total Maximum Daily Loads (TMDL) for bacteria that can be discharged from the storm drains during dry weather to the Santa Monica Bay. On December 12, 2003 the Regional Board adopted Resolution No. 2002-022 establishing a TMDL for wet weather bacteria discharges to Santa Monica Bay. The TMDLs requires a Coordinated Shoreline Water Quality Monitoring Plan for the 44 beaches from Ventura County line to outer Cabrillo Beach.

The cities of Manhattan Beach, Hermosa Beach, Redondo Beach and Torrance work cooperatively on this shoreline water quality monitoring since the watershed boundaries cross the city boundaries. The cities each entered into an agreement with Redondo Beach for Redondo Beach to administer the Water Quality Monitoring Contract and report on the results. The term of that original agreement was from November 1, 2004 to October 31, 2008.

The proposed term for this contract is from November 1, 2008 to October 31, 2011 with an option to extend the term for up to 12 more months. The annual cost of

water quality monitoring for Torrance is estimated to be \$10,406, but is dependent on the number of water samples that have bacteria level exceedences and require follow-up sampling and analysis.

The City of Redondo Beach staff has been very effective in administering the Shoreline Water Quality Monitoring Contract and diligent in forwarding monitoring results. The water quality monitoring laboratory (Michelsons Laboratories) have been responsive to the needs of cities and their fees are reasonable.

NOW, THEREFORE, the Parties do hereby agree as follows:

AGREEMENT

ARTICLE I – Purpose of AGREEMENT

1. **Purpose of AGREEMENT** – The purpose of this AGREEMENT is to memorialize the Parties' willingness to coordinate the payment and performance of Monitoring Services that are consistent with the provisions of the CSMP and the Bacteria TMDLs.
2. **Santa Monica Bay Beaches Bacterial TMDLs Coordinated Shoreline Monitoring Plan (CSMP)** – The Bacteria TMDLs provide for a CSMP to be submitted to the RWQCB for approval by November 12, 2003. The CSMP identifies all the monitoring

locations, the type of monitoring and the frequency of monitoring. RWQCB approved the CSMP on April 28, 2004, the approved CSMP can be located on the internet at <http://www.ladpw.org/wmd/NPDES/beachplan.cfm>.

- 3. NPDES Permit Compliance** – The parties acknowledge that the NPDES Permit specifies that the CSMP is to be used to determine compliance with the Receiving Water Limitations of the NPDES Permit. Torrance agrees that the data collected during the execution of the Monitoring Service can be used by the RWQCB for compliance determination

ARTICLE II– Responsibilities of Redondo Beach

- 1. Monitoring** – Redondo Beach will retain the services of a private laboratory to perform water quality monitoring in accordance with the CSMP at locations as indicated in Exhibit A on behalf of Torrance. Performance of Monitoring Services by Redondo Beach at locations listed in Exhibit A is expressly conditioned upon all Municipalities entering into agreements with Redondo Beach for the performance of Monitoring Services. Redondo Beach will not be obligated to perform Monitoring Services, and Torrance will not be obligated to pay Redondo Beach for such Monitoring Services until said condition is satisfied. If Redondo Beach does not obtain similar agreements with all Municipalities A to perform Monitoring Services at locations by October 31, 2008, Torrance may seek to have the Monitoring Services performed by another entity.
- 2. Cost per monitoring location** – Redondo Beach, in consultation with the Municipalities, established each Municipality's share of cost for the Monitoring Services. The cost allocation percentages among Municipalities and the estimated cost for each monitoring location are shown in Exhibit A.
- 3. Reports** – Redondo Beach will submit monitoring reports to RWQCB each month and forward a copy to Torrance as described in the CSMP. Torrance acknowledges but does not waive any objections to such use, that the data contained in said report could be used by the RWQCB in compliance Bacteria TMDL and NPDES Permit.
- 4. Exceedances** – Redondo Beach will conduct accelerated monitoring according to Los Angeles County Department of Health Services protocol (existing protocol is to conduct accelerated monitoring between April 1 and October 31 only) at each location where exceedance is detected. Exceedance will be determined according to the CSMP. Redondo Beach will provide additional accelerated monitoring at the request of Torrance. This AGREEMENT does not include any research or investigation of the reason(s) or source(s) that caused the exceedance.

ARTICLE III – Responsibilities of Torrance
