Re: City Council Item 10A – Citywide Traffic Analysis

This very large technical report was not produced in large quantities.

A copy of the binder has been provided for each member of the City Council and is available for public review during normal business hours in the City Clerk's office or in the Community Development Department at City Hall. It will also be available in the Council Chambers during the August 26 meeting.

In addition a copy of the Citywide Traffic Analysis is available to the public at the Katy Geissert Civic Center Library today.

We are currently researching the best method of making it available online and will share out the information as soon as possible.
