### V. Value

The Governmental Accounting Standards Board (GASB) has established Statement No. 31 for setting investment valuation standards. We will note the unrealized gain/(loss) monthly although we will not physically apply it to earnings until year-end, as GASB 31 requires. The portfolio paper gain or loss is the difference between the book and market value of securities with a maturity term of one year or greater at purchase. The disclosure of paper losses reveals the worse case scenario of liquidity in our portfolio. The philosophy of the city is to buy and hold to maturity.

**NOTE:** \*SB 564 passed in 1995, effective February 1, 1996, requires that local agencies submit a quarterly report to the legislative body containing detailed information on all securities, investments, and moneys of the local agency. It also requires a statement of compliance of the portfolio with the statement of investment policy and a statement of the local agency's ability to meet the expenditure requirements of the pool for the next six months.

**\*\* Investment Agreements were authorized by Council through their approval of the bond documents**

- (1) Reserve requirements may be overfunded due to an accumulation of funds which are adjusted at every scheduled payout. These funds will be transferred to the lease payment/principal/interest account when interest/principal payouts are made by the City.
- (2) Over/under funded reserve requirements is for memorandum purposes only. Reserve requirements as outlined in the bond indenture require that at time (day of) of semi-annual payments to bondholders that the market value of the investments held in reserve is equal to the reserve requirement. Due to market fluctuations throughout the year it is normal to see both over and under funded situations.
